DJ-PACK "Cosmetic Packaging" runs product and tooling studies for prototypes and lots particularly in the cosmetics industry.

Our manufacturing stock ranging from 25 to 200-ton machines makes any type of injection possible in order to produce series including assembly (with special lipstick assembly machines).

Thanks to its strong innovation and « Research and Development » capacity, DJ-PACK has been able to patent numerous lipstick products as well as offering its own patented standard range (customisable upon customer requirements).

DJ-PACK "Cosmetic Packaging" supplies the most famous brands such as Estée Lauder (sale of patent-right for Clinique), Coty Spain for Chupa-Chups perfume.
